

REPORT ON Living Peace Projects Activities June 2025

We've made incredible progress in 2024

What we've achieved together is the following

1. The very first Educational **Living Cycle Building** has been completed at the Palpung Sherabling Monastic Seat. Every day, over **1,000 people** now have access to fresh, clean Living Water — no need for bottled water anymore!

2. We also translated our Water Springs book into **Tibetan Language** and launched engaging educational programs in the Monastery of Palpung Sherabling Monastic Seat Himachal Pradesh November 14th 2024
 3. Preparations for Water Educational Programs at Private Schools in Gurgaon & Delhi
 4. Now that we've proven the concept works, it's time for the next big step.
 5. In Mathura (150 km south of Delhi), we're ready to build new Educational Living Cycle Buildings. With your help, we can reach 10 million people over the next five years. This holistic project includes:
 - New Living Water Cycle Buildings
 - A large-scale rollout of the water education program
 - Support for cleaning part of the sacred Yamuna River, using proven Dutch water technology
 6. The government of Mathura has already provided the land and will guarantee the long-term maintenance.
 7. We established Living Peace Projects Foundation Office in India
